FOR IMMEDIATE RELEASE

July 30th, 2015

CHUTES COULONGE PARK CONSIDERABLY INCREASES ITS TOURISM OFFER SINCE THE JULY 19TH, 2013 STORM THAT DEVASTATED THE PARK

Mansfield-et-Pontefract, July 30th, 2015 – Chutes Coulonge Park located in the village of Mansfield, Québec, in Outaouais and near the Ottawa Valley Region, is officially announcing the launch of three new sector of activity following important investments.

First, the Park is proud to inaugurate its brand new family Splash Pad open since July 28th, 2015. The pad is a platform which includes water fountains and toys for a safe and refreshing time with the kids. The splash pad is designed for kids but is open to everyone who wishes to cool off.

Next, the Park will also launch a newly built 5km walking trail. This trail is an addition to the existing nature trails available at the park. This intermediate level course is perfect for outdoors and nature enthusiasts. The trail will also be available in winter for snowshoeing.

Finally, the Park will also begin a unique experiential camping project that will be available year round. It consists of a unique concept that will offer guests the chance to live in a yurt or tipi overnight. This project will continue to expand throughout the year in order to offer other original camping opportunities, such as suspended tents in the trees.

The new 5km trail and camping projects will be launched in early August 2015.

In addition to these new attractions are our other amazing aerial activities already available such as our tree top obstacle course, Giant Canyon zip lines and the impressive Via Ferrata (rock climb) which are available 7 days a week until the end of October.

« Chutes Coulonge Park is an essential tourist attraction for the MRC Pontiac's economy and is an important attraction center for tourism development in the Outaouais Region. This project will contribute to increased traffic at Chutes Coulonge Park by attracting visitors from the Gatineau Region and Eastern Ontario. It is with pride that our government supports the expansion of this important sector for the MRC Pontiac and the region», André Fortin, Liberal MP.

Chutes Coulonge Park has for mission to promote the tourism, cultural, recreational and economic development of the MRC Pontiac Region while highlighting the natural heritage, fauna and flora of the region.
