### *Notice to owners – cadastral reform work will begin soon in your sector*

**Did you know**  
that if **your property** is  
incorrectly shown on the  
cadastral plan, you could  
experience delays or  
other inconvenience  
when you begin building  
or renovation work or  
decide to sell your  
property?  
**Your collaboration** is  
needed to ensure that  
your property is correctly  
shown on the plan.

As part of an operation to **reform the Québec cadastre**, the Ministère has instructed a firm of land surveyors to draw up a new cadastral plan for the sector in which your property is located (see description on the **back** of this form). The work will be completed gradually over a two-year period.

**You are asked to forward a copy of the following documents, if you have them in your possession, to the land surveying firm, before February 22, 2016, at the address given on the back of this form:**

- **certificate of location**
- **minutes of boundary determination**
- **land surveyor's plan**
- **unregistered title of ownership**

These documents are needed because the land surveying firm does not have access to private documents, but only to titles of ownership and public documents registered at the local registry office. The land surveying firm may also need to measure your land; if this is the case, you are asked to help the surveying team gain access to your property.

In approximately 18 months, we will notify you in writing of the results concerning your property, and you will be invited at that time to examine the new cadastral plan at a special meeting. You are not required to pay for the cadastral renewal operation, but **your cooperation is essential**.

To obtain more information, visit our website at [www.mern.gouv.qc.ca/cadastre](http://www.mern.gouv.qc.ca/cadastre) or contact the Ministère directly. From Québec City area, dial 418 627-8600, and from elsewhere in Québec, call toll-free 1 888 733-3720.
